Disclaimer: The Freight Calculator only provides indicative and approximate freight to be charged. The Actual Chargeable Freight would depend on number of other factors including type of wagons, actual weight of cargo, exact classification of commodity etc. It is hereby informed that the information provided herein is indicative in nature and cannot be used as evidence in any Court of Law or cited as evidence for RTI.

There is no link between carbon credit and Railway Green Point. The carbon saving in the form of Rail Green Points shown here is indicative in nature estimated based on average carbon emission per km per tonne for rail and road as per the methodology mentioned on Freight Business Development(FBD) Portal. The carbon saving doesn't entitle the customer for

any claim/compensation or benefit at present or in future.
